

FINANCIAL AGENT REMUNERATION INFORMATION

Financial agents are remunerated for their activities by way of a commission based on the fees paid to Partners Investments pursuant to the Service Pricelist. A commission may amount up to one hundred percent of the fee set in the Service Pricelist for the first acquisition of securities (the fee for the first acquisition of securities serves as the basis to calculate the commission for mediation of conclusion of an Agreement). A financial agent may also receive an additional bonus up to thirty percent of the fee set in the Service Pricelist for the first acquisition of securities (Production Bonus).

Details will be communicated to Clients upon written request.
