

Principal Adverse Sustainability Impacts (PASI) Statement

Balanced ESG strategy

vv

Financial market participant - Partners Investments, o.c.p., a.s., LEI - 097900BJFP0000196858

Summary :

Partners Investments, o. c. p., a. s., LEI - 097900BJFP0000196858 does not consider adverse impacts on sustainability factors directly within the investment process, these are indirectly considered by ETFs included in the investment strategy. The investment strategy also takes into account sustainability indicators, the so-called ESG criteria, which are based on data on the sustainability of individual investment instruments provided either by their issuers or MSCI. Selected are investment instruments whose investment policy is aimed at avoiding or reducing risks in the sustainability area. When choosing suitable tools, the following indicators are mainly assessed with focus to sustainability:

- Product classification according to SFDR
- ESG rating
- Carbon intensity
- Absence of controversial sectors.

VV

This statement is a consolidated statement of the main adverse effects of Partners Investments, o. c. p., a. within Balanced ESG investment strategy.

This statement on the main adverse effects on sustainability factors applies to the reference period from 1/1/2025 to 31/12/2025.

----------------------------------	--------	--------	----------	-------------	---------------

Biodiversity

7. Activities negatively affecting biodiversity-sensitive areas

Share of investments in investee companies with sites/operations located in or near to biodiversity sensitive areas where activities of those investee companies negatively affect those areas

5.90%

99.41%

The percentage of the portfolio's market value exposed to issuers' that either have operations located in or near biodiversity sensitive areas, are assessed to potentially negatively affect local biodiversity, and have no impact assessment; or they are involved in controversies with severe impact on local biodiversity, rebalanced by the sub-portfolio of corporate holdings.

Water

8. Emissions to water

Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average

0.31

6.55%

The total water emissions (metric tons) associated with EUR 1 million invested in the portfolio. It is calculated as the weighted average of Water Emissions (metric tons) per company divided by the company's most recently available enterprise value including cash (EVIC).

Waste

9. Hazardous waste ratio

Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average

3.70

39.84%

The total annual hazardous waste (metric tons reported) associated with 1 million EUR invested in the portfolio. Companies' hazardous waste is apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).
